 CAUTION 
CAUTION
This device contains high voltage components. Do not touch the internal components. The device must be installed by a qualified electrician. The device must be grounded. The device must be protected against fire. The device must be protected against moisture. The device must be protected against dust. The device must be protected against vibration. The device must be protected against electromagnetic interference. The device must be protected against radio frequency interference. The device must be protected against lightning. The device must be protected against static electricity. The device must be protected against mechanical damage. The device must be protected against unauthorized access. The device must be protected against tampering. The device must be protected against theft. The device must be protected against vandalism. The device must be protected against sabotage. The device must be protected against terrorism. The device must be protected against war. The device must be protected against nuclear war. The device must be protected against biological warfare. The device must be protected against chemical warfare. The device must be protected against radiological warfare. The device must be protected against environmental warfare. The device must be protected against information warfare. The device must be protected against cyber warfare. The device must be protected against space warfare. The device must be protected against all forms of warfare.
