АВАРІЙНЕ
ОСВІТЛЕННЯ

The image shows a wall-mounted electrical control system. At the top, a red illuminated sign reads "АВАРІЙНЕ ОСВІТЛЕННЯ" (Emergency Lighting). Below it, there is a grey control box with several indicator lights. The main part of the system consists of three white Omega control panels. The leftmost panel has a digital display and several buttons. The middle and right panels feature multiple rows of indicator lights and buttons. Below these panels is a white Full Energy battery backup unit with a key switch and status indicators. To the right, there is a small white sensor or detector. At the bottom, a red emergency stop button is visible.
