

A white furnace unit mounted on the wall. It features a digital display at the bottom and several informational labels on the top half, including a warning label with a red flame icon and a technical specification label.

A section of silver flexible metal vent pipe connected to the top of the furnace, curving upwards and to the right.

A small, square, recessed light fixture mounted on the wall above the furnace.

A square hole cut into the wall, located above the furnace and to the right of the light fixture.

A network of black gas piping. A horizontal line runs across the wall from the furnace area to the right wall. A vertical line runs down from the horizontal line to a gas control valve. Another vertical line runs down from the horizontal line to a gas meter on the right wall.

A black gas meter mounted on the right wall, connected to the gas piping.

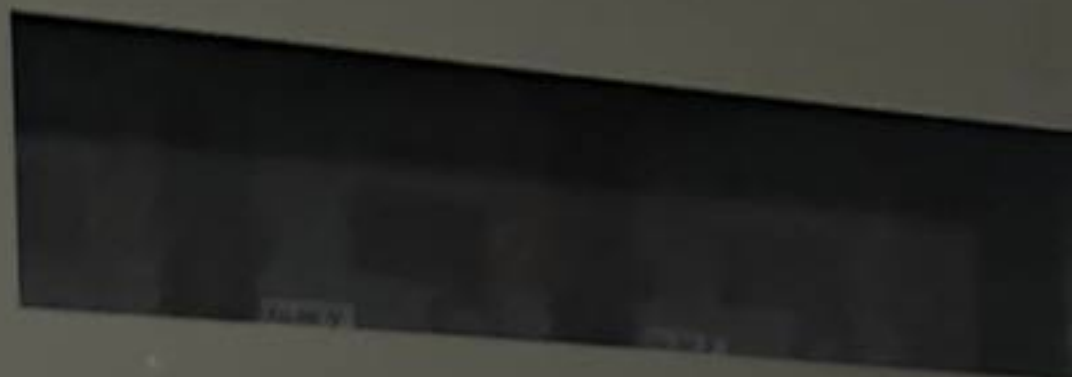

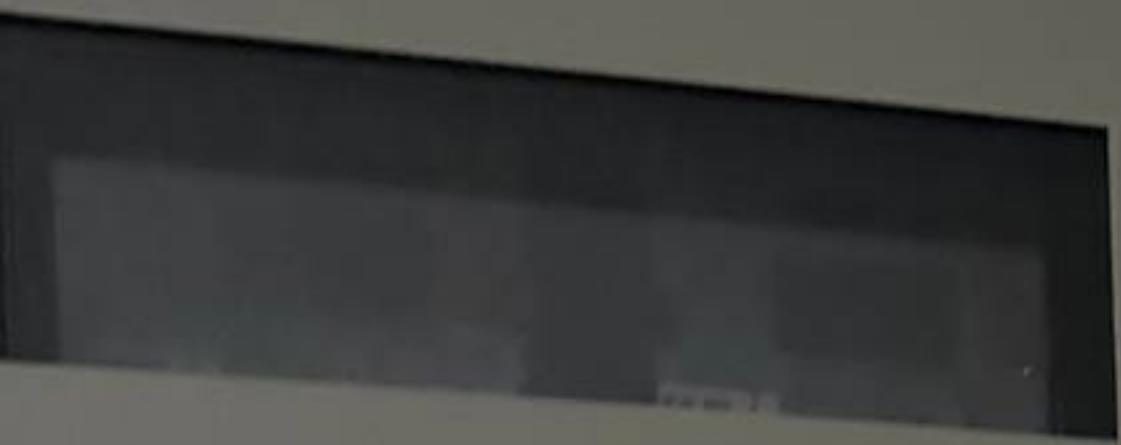

A large cardboard box on the floor. The box is brown and has some text and a logo on it, including the word "SILENCE" and a circular logo with a stylized 'H'.
